CIA INTERNAL USE ONLY **CONFIDENTIAL**

25X1 6. [] Hugh Wolff, Library of Congress, called and asked if they could have two copies of "Guide to CIA Statutes and Law." I told him I would see if copies were available and let him know.

25X1 7. [] Ann Scudder, in the office of Representative Don Fuqua, called and asked for a copy of the publication "Potential Implications of Trends in the World Population, Food Production and Climate." [] will handle this.

25X1 8. [] Jim Wilderotter, White House staff, called and said he thinks we should start developing whatever kinds of documentation we can with respect to the degree of congressional notification and acquiescence in specific operations and activities in the past. See Memo for Record.

25X1 25X1A 9. [] Per [] instructions, called Charles Snodgrass, House Appropriations Committee staff, and asked if it would be possible to change the scheduled briefing of the Defense Subcommittee from 5 June to 2 June at 10:30 a.m. or 4 June at 2:00 p.m. Snodgrass said this was not possible because Congress would be in recess at this time.

25X1 10. [] Charles Meissner, Senate Foreign Relations Committee staff, called and requested a briefing sometime next week on the Israeli military and economic situation. I told him I would have [] get in touch with him on Monday.

25X1 25X1A 11. [] [], called and asked that we handle a call he had received from Gene Sullins, International Division, GAO. I called Sullins and determined that he wanted the same Agency briefing given to Senator Charles H. Percy (R., Ill.) concerning controls of nuclear reactors sent abroad referred to by the Senator on the Senate floor. Sullins also wanted a central focal point in the Agency to which he could deal rather than "calling all around" as he has been doing. As concerns his first request, after checking with [] OCI, I advised Sullins that the briefing of Senator Percy was given by ERDA and not CIA. He also asked to call [] As to the second request, I told Sullins to call our office unless he was informed to the contrary. I made it clear that each request would, however, have to be reviewed closely. Sullins said he understood the relationship that exists between CIA and GAO and contemplated very few requests. He was interested only in an initial office to contact.
